

PreVeil Compliance Accelerator

Achieving CMMC compliance requires more than just safeguarding Controlled Unclassified Information (CUI). Defense Contractors must also create extensive documentation, which the DoD estimates will take 168 hours at a cost of \$40,000. This leaves contractors to choose between tackling this time-consuming burden themselves or hiring costly external consultants.

PREVEIL'S COMPLIANCE ACCELERATOR OFFERS A BETTER SOLUTION – a proven toolkit that, along with PreVeil Email and Drive, cuts CMMC documentation work by 60%, expediting compliance and saving tens of thousands of dollars. It includes:

Roadmap to CMMC Videos

This custom roadmap to CMMC, guided by compliance experts and CMMC assessors (C3PAOs), takes customers from the theoretical to the practical.

Pre-Filled Documentation

Pre-filled documents with approved language covering all 110 NIST 800-171 controls, with step-by-step instructions to complete the organization-specific requirements.

SYSTEM SECURITY PLAN (SSP) provides detailed language that explains how a customer will be able to meet the NIST 800-171/A controls with PreVeil.

STANDARD OPERATING PROCEDURES (SOP) provide step-by-step instructions on how security tasks are to be performed.

CUSTOMER RESPONSIBILITY MATRIX lists each of the NIST 800-171 controls and objectives, indicating if they are fully, partially, or not met by PreVeil.

PREVEIL REFERENCE ARCHITECTURE provides a detailed technical overview of the PreVeil system and how it protects CUI.

POAM WORKSHEET lists the controls and assessment objectives that are out of scope for PreVeil and provides suggestions and examples for how to address them.

Access to PreVeil's Compliance Team

1x1 access to PreVeil's in-house licensed RPs (Registered Practitioners) and CCPs (Certified CMMC Professionals) to answer compliance questions both before and during an assessment.

A Proven Solution

More than 10 defense contractors + C3PAOs have used PreVeil's proven solution to achieve perfect 110 scores in DoD assessments. Here's what one of them said:

“The Accelerator Package documentation was fabulous and easy to use – we did not get a single comment on our SSP from the C3PAO or DIBCAC. And it was a BARGAIN – the documentation alone saved me \$100,000.”
